

## STEVE SAUER

### Artist statement:

I am an American ceramic artist, born December 1945, and raised in the Pacific NW. In College I majored in oil painting with a minor in Art History. I later switched to clay and am a self taught potter, with the exception of a hands on life changing course with the Ruth Duckworth. Many wonderful potters, clay artists and friends have selflessly guided me along the way. I would not be who I am today with out the fantastic community, and more locally, family of wood fired Artists that works so hard to make each firing successful.
